1. Introduction

The Freedom of Information Act requires every public body authority to have a publication scheme, approved by the Information Commissioners Office (ICO) and to publish information covered by the scheme.

The Greenheart Learning Partnership adopts the model publication scheme v1.2 as prepared and published by the ICO ([What information do we need to publish? | ICO](#))

This publication scheme commits an authority to make information available to the public as part of its normal business activities. The information covered is included in the classes of information mentioned below, where this information is held by the authority. Additional assistance is provided to the definition of these classes in sector specific guidance manuals issued by the Information Commissioner.

For the purposes of this scheme the term 'Authority' relates to Greenheart Learning Partnership.

The scheme commits an authority:

- To proactively publish or otherwise make available as a matter of routine, information, including environmental information, which is held by the authority and falls within the classifications below
- To specify the information which is held by the authority and falls within the classifications below
- To proactively publish or otherwise make available as a matter of routine, information in line with the statements contained within this scheme
- To produce and publish the methods by which the specific information is made routinely available so that it can be easily identified and accessed by members of the public
- To review and update on a regular basis the information the authority makes available under this scheme
- To produce a schedule of any fees charged for access to information which is made proactively available
- To make this publication scheme available to the public
- To publish any dataset held by the authority that has been requested, and any updated versions it holds, unless the authority is satisfied that it is not appropriate to do so; to publish the dataset, where reasonably practicable, in an electronic form that is capable of re-use; and, if any information in the dataset is a relevant copyright work and the public Model publication scheme Model publication scheme Version 1.2 20151023 2 authority is the only owner, to make the information available for re-use under the terms of the Re-use of Public Sector Information Regulations 2015, if they apply, and otherwise under the terms of the Freedom of Information Act Section 19

The term 'dataset' is defined in Section 11(5) of the Freedom of Information Act. The term 'relevant copyright work' is defined in Section 19(8) of that Act.

Where it is within the capability of a public authority, information will be provided on a website. Where it is impracticable to make information available on a website or when an individual does not wish to access the information by the website, a public authority will indicate how information can be obtained by other means and provide it by those means. In exceptional circumstances some information may be available only by viewing in person. Where this manner is specified, contact details will be provided. An appointment to view the information will be arranged within a reasonable timescale.

Information will be provided in the language in which it is held or in such other language that is legally required. Where an authority is legally required to translate any information, it will do so.

4. Charges which may be made for information published under this Scheme

The purpose of this scheme is to make the maximum amount of information readily available at minimum inconvenience and cost to the public. Charges made by the authority for routinely published material will be justified and transparent and kept to a minimum.

Charges may also be made for making datasets (or parts of datasets) that are relevant copyright works available for re-use. These charges will be in accordance with the terms of the Re-use of Public Sector Information Regulations 2015, where they apply, or with regulations

made under section 11B of the Freedom of Information Act, or with other statutory powers of the public authority.

If a charge is to be made, confirmation of the payment due will be given before the information is provided. Payment may be requested prior to provision of the information.
